

PRESS RELEASE

Accursia Capital acquires 100% of Costampress S.p.A. and initiates the strategic repositioning of an Italian excellence in die casting

The transaction was coordinated by Adacta and MDA for Costampress, Accursia Capital was advised by ACT Legal

Gardigiano di Scorzè (VE) - Munich, May 6th 2025 - The German private equity fund **Accursia Capital GmbH** has completed the acquisition of **100% of the shares of Costampress S.p.A.**, a historic company founded in 1971 in the aluminium die-casting sector, capable of supporting customers throughout the entire production process from the development and design of product components, to the design and construction of production moulds, up to the management of mass production of die-castings and the subsequent mechanical processing stages to obtain finished components.

While historically focused on the automotive sector — **where it has developed distinctive technical know-how and solid relationships with leading OEMs and Tier-1 suppliers**— Costampress has progressively diversified its client base into adjacent sectors such as hydraulic filters, high-pressure washers, robotics, heating systems, and other industrial applications. The company exports 62% of its production, mainly to Germany, Spain, Slovakia, Poland, and Romania, with the remainder distributed across Italy (15%) and other global markets including Russia, the United States, Mexico, and Uzbekistan.

This strategic acquisition enables Accursia to broaden its industrial footprint and establish a platform in the die-casting and tooling sector, strengthening its position in the European automotive supply chain and enhancing its presence in the Italian industrial landscape.

With Accursia Capital, Costampress accelerates the execution of an ambitious strategic plan and prepares to embark on a new phase of development oriented towards technological innovation, digitisation, sustainability and international competitive strengthening as a leading player in the die-casting industry.

The transaction is part of a broader industrial and financial turnaround process launched through the Italian **negotiated crisis resolution framework**, which involved key suppliers and major financial institutions. The aim was to safeguard critical technical know-how, ensure continuity of operations, and preserve the industrial value and legacy of a company with unique capabilities in the sector.

Statements

Martin Scheiblegger, CEO of Accursia Capital, said:
"The acquisition of Costampress is fully part of our strategy to invest in European industrial SMEs with high growth potential and a strong technical identity. We recognised in Costampress distinctive engineering know-how, state-of-the-art manufacturing facilities and strong relationships with OEM and Tier-1 customers. Our goal is to support Costampress' transformation from a local supplier to a European die-casting leader through a long-term industrial partnership based on innovation, quality and sustainable development."

Swen Graf, new CEO of Costampress, added:
"Leading the transformation of Costampress is a highly motivating challenge. We have already defined the strategic priorities: investment in technology and digitalisation, customer portfolio expansion, and organisational strengthening. Accursia Capital's support will be instrumental in accelerating this growth path and positioning Costampress among Europe's top players in aluminum die-casting."

Riccardo Molin, outgoing CEO, said:
"This transaction marks the culmination of a collective effort to secure the future of a recognized industrial excellence. I will remain with the company to support a smooth leadership transition and contribute to the successful implementation of the new industrial plan with a strong sense of responsibility and commitment."

The transaction was coordinated by **Adacta Advisory** as financial advisor, with a team led by **Daniele Trevisan** and **Tiziano Galiazzo**, who assisted Costampress in structuring the deal and negotiating with the financial Institutions; **Adacta Tax & Legal**, with a team led by **Fabio Bonato**, managed the aspects related to the corporate crisis; **MDA Studio Legale e Tributario** handled all the legal aspects, the structuring of the transaction and the negotiations with the creditors with a team led by **Alessio Vianello**, **Marco Favaro** and **Simone Cecchinato**. The banking syndicate was advised by **Studio Giovanardi**, with a team led by **Linda Morellini**; **Luca Pieretti** was appointed as independent expert by the Chamber of Commerce to support creditor negotiations.

On the buy-side, **Accursia Capital** was advised by **ACT Legal**, with a team led by **Luca Vicarioli** and **Sven Tischendorf**.

Corporate Profiles

Accursia Capital GmbH is a Munich-based private equity fund active in long-term investments in the industrial sector, with a focus on the manufacturing and automotive sectors. The investment strategy is based on the valorisation of European companies with high technical expertise, through industrial development plans, organisational strengthening and sustainable growth.
